The Events!

Friday October 2nd
The intent of this event is to provide an opportunity for K-12 students and the public in Stockton, California and the surrounding communities of San Joaquin County to learn about Architecture, Construction, Engineering, and Design. A full curriculum involving hands on design and building projects, engineering experiments, technical lectures, construction site visits, historic walking tours, and a film presentation will be conducted at Stockton Area Schools, the Miracle Mile, and Downtown Stockton.

Saturday October 3rd
A public screening of the film, If You Build It will take place on and will feature a reception and public presentation of the educational programs from Friday.

The Scholarships!
Today’s Students... Tomorrow’s Technical Leaders: AIA Sierra Valley chapter is proud to announce the inclusion of scholarships. Proceeds to fund these scholarships come from the generous donors of local businesses and private sponsors of Platinum, Gold, Silver and Bronze contributions.

The Expected Outcomes!
- Parents and Family of the Students attending schools in San Joaquin County
- 100+ AIA members
- Additional outreach via social media, local media, industry affiliate marking and via AIA members and the general public attending The Stockton ACED Festival events and activities.

In Collaboration with Stockton Unified School District, Lincoln Unified School District, San Joaquin County Office of Education, and San Joaquin Delta Community College, AIA Sierra Valley and numerous local Businesses and Organizations: Students, grades K-12, will have opportunities to explore ideas of design, architecture, engineering, and construction through a range of hands-on activities, tours, and lectures. Each activity is catered to fit the students’ grade levels and interest in specific topics as well as allowing individuals to explore their imagination and creativity to create and think innovatively. The futures of architecture, construction, engineering and design lie in the minds of young students that can bring fresh and cutting edge ideas to the world. Not only will students learn the tools to design their own futures, but also the tools to build the futures of the design world.

Enjoy a special evening celebrating design excellence! Learn about the award-winning projects from the architects who designed them. From architecture and construction, to engineering and design, these projects have truly ACED all aspects of their work. Event includes drinks, appetizers, and abundant sources of inspiration!

Directed by Patrick Creadon, IF YOU BUILD IT follows designer-activists Emily Pilloton and Matthew Miller to the rural and poorest county in North Carolina: Bertie County. Here they lead 10 students to transform their community through a year-long, full scale design and build project while fighting the struggles of the change-resistant school board. IF YOU BUILD IT offers a compelling and hopeful vision for a new kind of classroom in which students learn the tools to design their own futures.
